Key Learnings

Institutional Development

**Enabling Ciliwung
Stakeholders to have a
constructive dialogue**

**Open Mind
Open Heart
Open Will**

Key Learnings

IDEAS Group Learning

It's all about people within a system

The U process tool can be used to engage stakeholders with various level of education and background

Key Learnings

Future Potential

More dialogue at micro level
(kecamatan)

Offered to adopt a ciliwung
upper-shed area as our prototype
