

28 December 2006

Dear friends,

Our brothers and sisters in Mandailing Natal district in North Sumatra province and Aceh are currently facing a difficult situation due to the landslides, floods and earthquake which happened recently and still happening now. It is so unfortunate that the calamity happened at the same time of the year when the Tsunami hit the area two years ago. While we are feasting during this festive season, they are desperately in needs of food, milk, water, clothes, blankets, medicines and temporary shelters (tents).

United in Diversity (UID) has established contacts with some organizations who are currently doing relief efforts on the ground. Some of these organizations are:

- Conservation International Indonesia
- Yayasan Cinta Anak Bangsa
- Cordia Caritas Medan
- Walhi Medan

You and your organization can join us in this effort by giving your in-kind or cash contributions to our brothers and sisters in Mandailing through UID. We will directly send your donation to recipients in coordination with our friends on the ground.
